“MWH’s purpose is to Build a Better World”

### STAKEHOLDERS

We will be uncompromising in our determination to achieve product excellence and in turn, improve the world’s quality of life.

Our reputation as a trustworthy business partner is critical to our business success.

Our business goals are only met when we mutually make our clients successful and we are fairly rewarded.

MWH will work internally, and alongside partners and clients to reduce the environmental and social impact of procurement decisions, and to develop the process whereby social and environmental impacts are considered over the product lifetime.

### COMMUNITY

We are committed to being involved citizens, both as a business and as individuals, in improving the communities where we reside and work.

### EMPLOYEES

Our employees are our greatest assets and we will grow, inspire and protect them.

### HEALTH, SAFETY AND ENVIRONMENT

MWH aims to achieve the highest standard of safety, health, environmental and quality performance in all our products, services and work activities.

We will strive to reduce the carbon footprint of our activities and engage with clients to minimise project emissions.
